PROFESSIONAL PROFILE:

Salesforce Business Analyst | Cloud Odyssey Pvt Ltd, Bangalore, Karnataka (Jan 2023 - Present)

Clients: Gsoft, REVA, IITM, Fintech Filings, Aira Matrix, Peppri & Orderfox.

- Successfully led multiple Salesforce implementation projects from initiation to go-live, ensuring alignment with business objectives and stakeholder expectations.
- Delivered impactful projects across Salesforce Sales Cloud, Service Cloud and Pardot (Marketing Automation).
- Conducted requirement-gathering sessions with stakeholders to define functional and technical specifications, ensuring alignment with business goals.
- Collaborating with cross-functional teams to translate requirements into actionable tasks and make sure optimal alignment with business objective.
- Work with creating Service Blueprints by using Mural and created detailed data flow and process diagrams using tools like Draw.io & Lucid chart to communicate business processes effectively.
- Performed gap analysis to identify discrepancies between current processes and objectives, facilitating optimized Salesforce solutions that improved efficiency by 30%.
- Prioritized and structured user stories with well-defined acceptance criteria, facilitating predictable and efficient sprints.
- Designed and implemented a custom Opportunity Management system integrating products, services, and assets, improving deal closure rates by 25%.
- Worked with user creation, profiles, permission sets, sharing rules, custom objects, fields, reports, and dashboards to optimize Salesforce configurations.
- Collaborated with developers to design scalable automation solutions using Flow, and Validation Rules, significantly reducing manual intervention.

- Led Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, ensuring efficient delivery of project milestones.
- Managed integrations between Salesforce and third-party tools like SAP, DocuSign, Amazon S3, ZoomInfo, Sales Navigator, Lusha, and Microsoft Teams.
- Configured and aligned Pardot with CRM to enhance marketing automation, lead generation, and campaign performance.
- Implemented change management strategies and conducted training for 100+ users, ensuring smooth transitions and driving Salesforce adoption.
- Delivered training materials and user guides, offering ongoing support to maximize end-user efficiency and satisfaction.
- Developed and delivered presentations to stakeholders, communicating project status, risks, and actionable recommendations.
- Monitored project performance against KPIs, generating reports and providing updates to stakeholders for informed decision-making.
- Streamlined post-sales processes by implementing automated service contract renewals, ensuring accurate end-date updates and boosting customer retention by 20%.

Salesforce Admin (Intern) | Intelogik Solutions, Pune (Sept 2022 – Dec 2022)

- Created and managed users, roles, profiles, and access levels.
- Developed custom objects, managed object relationships, created fields, and implemented automation. Used Data Loader and Data Import Wizard for data loading.
- Managed the sales lifecycle from lead to opportunity close.
- Created and managed reports and dashboards.

Financial Analyst | Textual Analytics Solutions, Bangalore (Jun 2010-Mar 2012, Jan 2016-Jul 2016)

- Led the DBRS Project with a team of 20 engineers, focusing on creating input files, developing robust validation systems, training analysts, managing workflows, and resolving customer issues to ensure project success.
- Acted as a bridge between developers and financial analysts, facilitating effective communication and ensuring the delivery of accurate financial information. Contributed to the development of the Financial Analysis System (FINAS) for automated taxonomy capture.
- Designed extraction taxonomy and validation layers for taxonomy nodes, provided critical feedback on design and domain issues, and developed methodologies to address missing data for improved data accuracy.
- Created sample data points for error calculations, devised ranking methods for outputs, and implemented scalable approaches to enhance the accuracy and reliability of financial models.

Financial Analyst | Thomson Reuters, Bangalore, Karnataka (Nov 2008 - Jun 2010)

- Captured and analyzed financial reports, including income statements, balance sheets, cash flows, and insider information across global markets, ensuring accurate data uploads into Thomson Reuters database.
- Acted as a Quality Assurance (QA) lead, performing detailed quality checks for the team and new joiners. Conducted quality checks, maintained database accuracy, and implemented innovative methods to improve data integrity and client service.
- Built strong relationships with suppliers to ensure optimal service delivery while mentoring junior analysts and reviewing their work for accuracy and compliance.

ACHIEVEMENTS:

- ✓ Received [Appreciation](#) from Pepperi client for a smooth transition from HubSpot to Salesforce Marketing Cloud.
- ✓ Received [Spotlight](#) Award for the 2023 4th quarter by Cloud Odyssey.
- ✓ Awarded Quality Champion and All-Rounder in Thomson Reuters, Bangalore in 2010.
