Summary

Efficient Salesforce Administrator and Tester with 3 years of experience in Salesforce Configuration and Customization. Proven ability to manage user roles, profiles, security settings, and data integrity. Have a good expertise in testing different Salesforce tracks. Collaborated with cross-functional teams to ensure operational reliability and support strategic changes. Experience in Administration, Configuration, Implementation and Support of Salesforce CRM applications based on Apex Language. Eager to leverage my knowledge and skills in cloud-based Organization management systems and contribute to the success of dynamic projects.

Skills

Salesforce Administration • Database Management • Reporting and Analytics • Dataloader • Workflows and Triggers • Salesforce CRM • Validation rules • SOQL • Project Management Skills • Highly Organized • Critical thinking and problem solving • Data Integrity • Salesforce Testing • Integration with Salesforce CPQ

Experience

Accenture	Location
Packaged App Development Analyst • Led a team to ensure high quality delivery by providing clear requirements and direction. • Managed Salesforce requests/issues for 2,500+ Salesforce total end users. • Collaborated with business stakeholders and proposed Salesforce based solutions and translated them into actionable deliverables, guaranteed high level of quality and 100% accuracy. • Excelled in designing and implementing features of Salesforce Administration Security models like Users, Profiles, Permission Sets, Organization Wide Defaults (OWD) settings, Field Level Security (FLS), Role Hierarchy etc. • Identified and resolved problems through root cause analysis and research. Implemented pick-lists, field dependencies, lookups, master-detail relationships, validations and formula fields to the custom objects. • Hands-on experience on Salesforce CPQ, Quotes, Quote Lines, Product Bundles, Automation Renewals, Opportunity. • Performed system analysis, documentation, configurations using COPADO, and user support for platform transitions. • Trained and mentored junior staff on resolving customer issues with different strategies and techniques and conducted knowledge transfer sessions for associate resources working in SFDC technology.	
Accenture Packaged App Development Associate • Successfully managed Salesforce Configuration - Custom objects and Standard objects, Relationships, Security Settings, Validation Rules, Workflows, Record Types, Pagelayouts, Approval Process and Process Builder. • Good exposure on Apex data loader, import wizard, Export wizard & workbench. Conducted data imports and database cleanup to enhance data quality and consistency. • Identified production risks & areas for improvement and ensured successful implementations of new processes. • Provided support to the Business Operations team in cross-functional projects and strategic changes to systems and processes, driving high levels of data integrity and operational reliability. • Implemented minor enhancements on standard objects like Campaigns, Leads, Accounts, Contacts, Opportunities, Quotes, Activities, Dashboards, and Reports. • Created custom report types, custom reports, and dashboards to meet the reporting requirements of the decision-makers in the organization. Performed day to day User Management on SFDC Org by configuring Sharing Rules, Permission Sets, Roles and Profiles. • Managed the database for team's regions and performed basic administration, de-duping and cleanup procedures • Implemented security settings, Object level security, Field level and record level security.
