ABOUT ME

- Having 2.6+ years of hands-on experience in designing, developing, and delivering end-to-end enterprise projects primarily on the Force.com platform.
- Proficient in understanding business requirements and translating them into technical solutions effectively.
- Expertise in various aspects of the Force.com platform including Apex triggers, Apex classes, Lightning Web Components (LWC), Apex custom controllers, integrations, email templates etc.
- Skilled in building integrations and interfaces using SFDC web services API.
- Possess strong problem-solving abilities, capable of researching and understanding undocumented setups and applications.
- Familiarity with public community implementation.
- Extensive experience in client-facing roles and adept at designing roadmaps for potential solutions.
- Experienced in Agile-based project delivery.
- Highly organized with a knack for meeting deadlines and efficient work management.
- Self-driven individual, quick to adapt to new skills and technologies, and enthusiastic about exploring new avenues.
