## PROFESSIONAL SUMMARY

Results-driven Junior Salesforce Developer with 2+ years of frontend development experience, specializing in Lightning Web Components (LWC), Apex, and SOQL. Successfully transitioned from building high-performance React.js applications to crafting scalable Salesforce solutions. Proven track record in delivering 15+ production applications with 30% performance improvements. Earned 40+ Trailhead badges and actively preparing for Platform Developer I certification. Looking to leverage full-stack development expertise and Salesforce proficiency in a dynamic team environment.

## TECHNICAL SKILLS

**Salesforce Technologies:** Lightning Web Components (LWC), Apex, SOQL, SOSL, Salesforce Flows, Process Builder, Validation Rules, Custom Objects, Custom Metadata Types, Triggers, Aura Components

**Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, Material UI, Bootstrap

**Backend & Database:** Java, RESTful APIs, JSON, XML, Database Design, Data Modeling

**Development Tools:** Git, GitHub, VS Code, Salesforce CLI, Developer Console, Workbench, SonarQube, JIRA

**Core Competencies:** Agile/Scrum, Code Reviews, SEO Optimization, Performance Tuning, Debugging, Unit Testing

## PROFESSIONAL EXPERIENCE

### Executive Frontend Developer

*Decimal Point Analytics*

June 2023 – February 2025

*Nashik, Maharashtra*

- Architected and developed 15+ responsive React applications with effective SEO, improved performance, and higher engagement while leading SonarQube code reviews and delivering high-quality features within Agile sprints

### Internship Trainee

*Decimal Point Analytics*

February 2023 – June 2023

*Nashik, Maharashtra*

- Developed reusable React components and implemented responsive UI designs using modern CSS frameworks
- Participated in code reviews and adopted industry best practices for version control and collaborative development

## SALESFORCE PROJECTS

### Local Service Request Form | LWC, JavaScript, HTML, CSS, Custom Objects

2025

- Built a dynamic, responsive LWC form with client-side validation to streamline service intake and improve data accuracy for future automation.

### Interactive Quiz App | LWC, JavaScript, SLDS

2025

- Developed an interactive Quiz App using LWC with real-time validation, scoring, timer, and restart features, showcasing strong JavaScript logic, UI/UX design, and core LWC proficiency.

## EDUCATION

### Master Diploma in Java Technologies

*Profound Institute*

March 2022 – September 2022

*Nashik, Maharashtra*

### Bachelor of Technology in Civil Engineering

*Sandip University*

July 2017 – September 2020

*Nashik, Maharashtra*
