Professional Profile

1+ years of experience and expertise in Developing and customizing Salesforce Solutions. Proficient in Apex, Visualforce, Lightning Components, and Salesforce administration. Skilled in analyzing business requirements, designing scalable solutions, and implementing them efficiently in the Sales, and Service Cloud. Proven ability to collaborate with cross-functional teams and stakeholders to drive successful project outcomes. Excellent analytical, conceptual, and problem-solving skills to evaluate business problems and apply knowledge to offer solutions.

Work Experience

Infosys

Nov 22 - Present: *Salesforce Developer*

Projects:

1. Title: **Said Business School(SBS)**

- Part of the academic department at the University of Oxford, SBS focuses on business finance and management education.
- Developed and enhanced Service Cloud with Triggers and LWC components.
- Configured Salesforce, including data models, UI customization, workflows, and approval processes.
- Collaborated with stakeholders to gather requirements and implement system enhancements.
- Integrated Web to Lead Forms with Form Assembly for data collection in Salesforce.

2. Title: **Cloudera - Salesforce Customization Project**

- Implemented automations for multilevel approval processes.
- Developed Apex Scheduler, validation rules, and triggers.
- Created custom settings for validation rules based on user profiles.

3. Title: **Motorola**

- Ensured correct data display during user record searches.
- Verified enforcement of required fields and validation rules.
- Validated login page functionality.

4. Title: **Samcomm CRM Implementation (Internal Training Project)**

- Designed a store to manage Leads, Wholesalers, Billing, and Products in the Sales Cloud to address the identified needs. This included creating custom objects, fields, record types, and page layouts, reports.
- Utilized Apex, Visualforce Lightning components, and declarative tools to build the custom Application. Developed custom triggers, Workflow, and automation processes to streamline sales workflows.
