EDUCATION

2021-2025

MALLA REDDY COLLEGE OF ENGINEERING & TECHNOLOGY

- B. Tech in Artificial Intelligence & Machine Learning
- CGPA : 8.25

2019-2021

ONENESS INTERNATIONAL SCHOOL

- 12th CBSE Board (Science)
- Percentage : 70.8%

2019

SUDDHANANDA VIDYALAYA

- 10th CBSE Board
- Percentage : 87.8%

SOFT SKILLS

- Analytical Problem Solving
- Teamwork & Stewardship
- Strong written and verbal communication skills
- Relationship building and Collaboration

SUBHANSU S BRAHMA

PROFILE SUMMARY

B.Tech in AI & ML from MRCET, CEH-certified with Data & Business Analytics training; developed an ML-based breast cancer classifier (BreakHis) and a CVE-mapped, OWASP Top 10-aligned vulnerable banking VM for in-house cyber drills. Skilled in threat intelligence, incident response, and data visualization using Power BI and Excel; recognized for a hands-on, analytical approach to cybersecurity challenges.

INTERNSHIPS

Deloitte India

JULY 2024 - DECEMBER 2024

Role: Intern, Cyber Security | Technology & Transformation

- Created dashboards and weekly, monthly & quarterly reports using Power BI and Excel to track threat trends, KPIs, and SLA compliance for cybersecurity incidents.
- Got hands-on experience in IZOologic portal for monitoring brand abuse & priority determination of incidents.

Union Bank of India

JUNE 2025 - JULY 2025

Role: Intern, Cyber Security | Chief Information Security Office

- Developed a realistic vulnerable image for conducting in-house cyber drill simulation exercise to assess the bank's readiness for incident management.
- Integrated real-world attack scenarios based on the OWASP Top 10 vulnerabilities.
- Executed a purple team exercise utilizing various tools within Kali Linux.
- Well understanding and walk through of new age cyber security tools like Attack Surface Management (ASM), Breach & Attack Simulation (BAS), Continuous Automated Red Teaming (CART), Centralized Threat Intelligence Platform (CTIP) and Digital Risk Monitoring (DRM).

TECHNICAL SKILLS

- Languages:** Python, Java
- Python Libraries:** Pandas, NumPy, Matplotlib, Seaborn, TensorFlow
- Data Tools:** MySQL, Power BI, Excel, PowerPoint

CERTIFICATIONS

- Certified Ethical Hacker (CEH)**
 - Performed vulnerability assessments, penetration testing, and ethical hacking using tools like Nmap, Metasploit, and Burp Suite.
 - Understood attack phases including reconnaissance, network scanning, system hacking, and web application exploits.
- Data Analysis with Python and Power BI**
 - Worked with Excel, SQL, and Power BI to analyze data, create dashboards, and derive actionable insights for business decision-making.
 - Gained skills in data modeling, requirement gathering, and interpreting trends to support strategic analysis.
- AWS Academy Graduate - AWS Academy Cloud Foundations**
- Cambridge English Empower B2 Level**

PROJECTS

- Breast Cancer Detection through EfficientNetV2 & Vision Transformer**
 - Crafted a deep learning model employing EfficientNetV2 and ViT for the precise classification of breast cancer histopathological images.
 - Trained and validated this model on the esteemed BreakHis dataset, attaining commendable performance across various magnification levels.
- Image Upscaling & Denoising with ESRGAN & Autoencoders**
 - Transformed low-resolution images through the magic of super-resolution GANs.
 - Leveraged autoencoders to banish noise in image processing tasks.
