

Result-driven and certified Project Management and Customer Success professional seeking strategic leadership roles where I can leverage my expertise in customer lifecycle management, Agile execution, SaaS delivery, and enterprise solutioning to drive client value, revenue growth, and digital transformation across global markets.

PROFILE SUMMARY

- PMP® certified Project & Customer Success Leader with 19+ years** of experience managing end-to-end delivery of complex SaaS, CRM, ERP, and AI-driven digital transformation projects, ensuring alignment with business goals across diverse industry verticals.
- Proven track record of managing **multi-million-dollar project budgets**, optimizing **resource allocation**, and ensuring **on-time, within-scope delivery** through Agile/Scrum frameworks—while minimizing risks, controlling costs, and maximizing value delivery.
- Adept at leading **cross-functional teams (developers, QA, UI/UX, cloud & infra engineers)** across global delivery models; ensured optimal team utilization, velocity, and stakeholder alignment across all phases of the **project lifecycle**.
- Successfully executed large-scale **customer onboarding, lifecycle success programs, and retention strategies**—improving **NPS, CSAT**, and driving upsells/cross-sells by aligning delivery with customer business objectives and value metrics.
- Expertise in conducting **project planning, sprint execution, resource forecasting, and timeline governance**, while maintaining tight control on delivery milestones, change requests, and compliance in regulated environments (SOC 2, PCI-DSS).
- Hands-on experience delivering platforms using **Azure, .NET Core, Angular, Selenium (POM)** and leading **CI/CD, DevOps automation, API integrations, and cloud migration** initiatives with consistent focus on scalability, cost-efficiency, and ROI.

CORE COMPETENCIES

- Project Lifecycle Management - Agile & Scrum Methodology - Customer Success Strategy - SaaS/ERP/CRM Implementation - Cross-functional Team Leadership - QBRs & Client Retention - UAT & CI/CD Deployment - Business Development	- Onboarding & Adoption Metrics - Strategic Account Management - AI/ML-Driven Platforms - Salesforce & JIRA Integration - Azure DevOps - Data Migration & Modernization - Upsell/Cross-sell Initiatives - Stakeholder Engagement
---	--

 EDUCATION B.Com. from University of Delhi, 2006	 CERTIFICATIONS/TRAINING Project Management Professional (PMP®) - PMI Credential ID: 3803028 Valid thru Apr 2027 - Six Sigma Green Belt - C.O.P.A. – Computer Operations & Programming Advisor (C & C++) - ISO 9001 & COPC Trained
 SOFT SKILLS - Communicator & Collaborator - Team Player & Mentor - Analytical & Critical Thinker - Problem Solving & Conflict Resolution - Visionary & Decision Making	

 KEY AWARDS & ACHIEVEMENTS - Reduced client onboarding time by up to 25% through the development and implementation of scalable onboarding frameworks and training programs. - Achieved 99.3% platform uptime by deploying automated CI/CD pipelines and blue-green deployment strategies on Microsoft Azure infrastructure. - Enhanced customer retention rates by 18% via quarterly business reviews, proactive success planning, and data-driven feedback integration. - Optimized resource utilization by 15% by implementing Agile capacity planning and sprint management across global cross-functional teams. - Accelerated product release cycles by 20% through automation using Selenium-based testing and streamlined Agile processes.

WORK EXPERIENCE

Oct'17-Present: **Upadpro Software & Services Ltd. (Noida, India) - AKA LionOBytes LLC (HQ: New Jersey USA)**
Associate Director Customer Success & Project Management

Key Project: **LionO360 – AI-Powered CRM & ERP Platform**

Strategic leadership role across product delivery, customer success, and project management for LionO360 – an enterprise-grade AI-powered CRM and ERP suite leveraging .NET Core, Angular, AI/ML, and NLP technologies. Oversight included full customer lifecycle management, global team leadership, Agile project execution, platform innovation, and account expansion.

Key Result Areas:

Customer Success & Client Lifecycle Management

- Customer Journey Ownership: Led end-to-end execution of client onboarding, adoption, retention, and expansion strategies across enterprise accounts.
- Onboarding Optimization: Developed and implemented scalable onboarding frameworks, training programs, and health score metrics to reduce time-to-value and increase product adoption.
- Stakeholder Engagement: Conducted Quarterly Business Reviews (QBRs), success planning, and performance tracking to improve retention and renewal rates.
- Feedback Integration: Established closed-loop feedback systems through CSAT/NPS programs, directly influencing product roadmaps and feature prioritization.
- Revenue Expansion: Drove upsell & cross-sell initiatives based on product usage analytics, increasing expansion revenue by 25%.
- Customer Advocacy: Acted as a customer advocate within product and engineering discussions to ensure alignment of platform features with client business objectives.

Project Management & Delivery Oversight

- Team leadership: Directed cross-functional teams of 40+ professionals, including architects, developers, QA engineers, DevOps, DBAs, and UI/UX experts across global locations.
- Agile Execution: Managed budgeting, capacity planning, and resource allocation to ensure optimal utilization and ROI across multiple projects.
- Budget & Resource Planning: Implemented Agile methodologies (Scrum), leading sprint planning, reviews, retrospectives, backlog grooming, and monthly release cycles.
- CI/CD & Automation: Delivered consistent high-quality releases using CI/CD pipelines with Selenium-based automation and Microsoft Azure cloud infrastructure.
- Cloud Infrastructure Management: Deployed zero-downtime releases using Blue-Green deployment strategies and robust rollback mechanisms validated through structured UAT processes.
- Governance & Compliance: Maintained regulatory compliance including PCI DSS, SOC 2, and EU-US Privacy Shield through continuous governance and third-party audits.

Tools & Technologies: .NET Core, Angular, Azure DevOps, Selenium (Java, POM), REST APIs, SQL, Salesforce, JIRA, ClickUp, MS Teams, Slack, Smartsheets, LionO360 CRM/ERP, Agile (Scrum)

Strategic Projects Delivered

VIP Wireless (Pennsylvania, USA): B2B E-Commerce Migration & ERP Modernization

- Migrated four nopCommerce B2B e-commerce websites to Azure with secure data transfer, system reconfiguration, and minimal downtime.
- Transitioned operations from NetSuite to LionO360 ERP based on gap analysis, improving system performance and integration with business workflows.
- Executed complete project lifecycle including planning, migration, platform customization, and post-implementation support.

CloudFrame (Org's Fortune 500 Clients): COBOL-to-Java Platform Modernization

- Designed and implemented customer success frameworks supporting enterprise tools "Relocate & Renovate," improving onboarding efficiency by 40%.
- Integrated Salesforce and JIRA to streamline project tracking, client communications, and support workflows.
- Led cross-functional collaboration to uncover and execute upsell opportunities, boosting client revenue contribution by 25%.

Sep'13-Oct'17: **Impetus Technologies Inc., Noida, India as AM- Business Development**

Key Result Areas:

- Enterprise Sales Leadership – Spearheaded lead generation and managed the full sales cycle for Big Data, Analytics, Cloud, and SaaS solutions across Fortune 500 clients through account-based and consultative selling.
- Product Demonstrations & Solutioning – Delivered impactful demos and tailored presentations for StreamAnalytix, showcasing real-time data streaming capabilities to address client-specific data processing needs.
- Customer Success Management – Drove onboarding, enablement, and retention initiatives, ensuring clients realized measurable business value and maintained long-term relationships.
- Key Account Growth & Upselling – Led account management and upselling strategies to deepen product adoption and increase recurring revenue within enterprise accounts.
- Client Advisory & Engagement – Acted as a trusted advisor by aligning product solutions with evolving client needs, enhancing product usage, engagement, and satisfaction.
