PROJECTS

Dealer Management Solution (DMS)

📍 Bangalore, India

DMS for Simple Energy Pvt. Ltd.

- **End-to-End Claims Management:** Designed and implemented a fully automated warranty and claims processing system, reducing manual intervention and improving approval efficiency.
- **System Integrations:** Developed and deployed integrations with Tally software, ensuring seamless creation of credit notes and retrieval of voucher numbers in Salesforce.
- **Process Automation:** Optimized claim workflows using Salesforce Flows, Process Builder, and Apex triggers, reducing processing time by over 30%.
- **Custom Development:** Built Lightning Aura Components and customized the Salesforce UI to enhance user experience and simplify claim handling.
- **Email-to-Case Implementation:** Configured email-to-case functionality to improve customer service, automate case creation, and track support requests.
- **Data Visualization & Reporting:** Developed custom dashboards and reports for operational insights, improving decision-making for marketing and finance teams.
- **Business Rule Implementation:** Applied Validation Rules, Approval Processes, and CPQ logic to enforce compliance and pricing regulations within warranty claims.
- **Client Collaboration & Training:** Conducted training sessions for internal teams, ensuring smooth adoption of Salesforce solutions and improving system usability.
