SKILLS

Automation tools (Workflow, Process Builder, Flows, Approval Process), Data migration tool (Data loader, Data import wizard), Sharing and security model, SOQL, SOSL, Collections, Apex, Batch Apex, Triggers, Lightning Web Component (LWC)

PROJECTS

Optimization Project

- Worked on an optimization project in which I integrated various workflows and process builders into a flow to streamline functionality execution, resulting in reduced processing time while maintaining the expected outcome.
- Formulated and executed a data-driven strategy to optimize software development process, resulting in 25% increase in code quality and 15% reduction in time spent on debugging.

Kofax CPQ Project

- Orchestrated the successful implementation of Kofax CPQ within Salesforce CRM, overseeing the entire project lifecycle, from estimating to deployment, resulting in a 40% reduction in quote turnaround time and a 25% increase in sales conversion rates.
- In this capacity I have conducted comprehensive testing and executed customization on various aspects such as objects, fields, record types, page layouts, workflow processes, renewal, amendment, flows, process builders and validation rules within the salesforce platform.

CERTIFICATIONS

- Salesforce Certified Platform Developer I - (Credential ID – 2370291)
