PROFESSIONAL EXPERIENCE

Software Engineer

Go Digital Technology Consultancy LLP | 2022 - Present

- I have 2 years of experience in Full Stack development and
- Salesforce Development during which I have worked on multiple projects and handled clients single-handedly as a sole contributor.
- My work includes implementing numerous automations,
- Salesforce CPQ Processes, and Salesforce Billing, ensuring smooth and efficient processes for my clients.
- Integrated Microsoft teams with Salesforce to generate teams meeting links
- Implemented Salesforce scheduler and integrated with external website.
- Enhanced sales productivity by 20% through the creation of custom reports and dashboards in collaboration with the sales team, providing real-time insights into sales performance and enabling informed decision-making.
- Automated lead management with a custom Salesforce app, resulting in a 25% increase in lead conversion rates and a 30% reduction in manual data entry, boosting overall sales efficiency.
- Developed and maintained Apex classes, Visualforce pages, and Lightning components to support a complex sales process, resulting in a 15% increase in sales revenue and a 25% reduction in sales cycle time.
