Academic Details

- **Bachelor of Technology (B.Tech) Computer Science and Engineering** Government Engineering College, AJMER; CGPA: 7.8 (2025)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- **Programming Languages:** C/C++
- **Frameworks:** React, Express, SQL, Bootstrap

Core Competencies

Version Control & Collaboration

Software Development Life Cycle

API Integration

Testing & Debugging

Database Management

Web Services

Data Structures & Algorithm

Web Performance Optimization

Salesforce development

Profile Summary

- **Skilled Web Developer** with a strong foundation in front-end technologies like **HTML5**, **CSS3**, and **JavaScript**, along with hands-on experience in building responsive web applications using frameworks like **React.js** and **Bootstrap**.
- **Experience in DBMS** using **SQL** (MySQL) and **NoSQL** databases (MongoDB).
- I have experience working with **Salesforce**, where I gained expertise in customizing objects, workflows, and automation to improve business processes. My experience includes managing data, creating reports and dashboards, and ensuring seamless CRM functionality. I am confident in leveraging Salesforce tools to drive efficiency and deliver business value.
- **Solid Understanding of Data Structures and Algorithms**, proficient in solving complex problems using **arrays**, **linked lists**, **trees**, and **dynamic programming**.
- **Strong Analytical and Problem-Solving Skills** developed through numerous projects, including real-world ML applications and efficient algorithms, aimed at enhancing performance and scalability.
- Possesses **in-depth knowledge of multiple technology stacks** which in turn contributes to an efficient development stage of products.

Work Experience

React.js Developer Intern

Celebal Technologies, JAIPUR

June 2024 –August 2024

Responsibilities:

- Write clean and efficient code to implement new frontend features and components using React.js. Ensure the interface is responsive and functions across devices and browsers.
- Work closely with backend developers and UI/UX designers to integrate APIs, enhance the user interface, and improve user experience.
- Identify and fix bugs, as well as optimize code for performance and scalability.
- Participate in code reviews and follow industry best practices like using React.js workflows (e.g., Redux).
- Stay updated with new React.js features, libraries, and tools while implementing feedback from senior developers.

Achievements:

- Created dynamic and mobile-friendly interfaces using React.js that enhanced user experience across multiple devices.
- Worked with the development team to design and implement new features, such as real-time data updates and user dashboards, improving overall app functionality.
- Contributed to improving the overall user experience by closely working with designers and implementing feedback.

Academic Projects

A KANBAN TASK MANAGEMENT WEB APP

Technology used : HTML, CSS, JavaScript, React.

Front-End Development: React.js.

Enhancing Automated Software Testing Using Symbolic Execution (KLEE) and Coverage-Guided Fuzzing (libFuzzer)

Technology used : Ubuntu , Klee , C++ , LibFuzzer(Coverage guided fuzzing)

Personal Details

Date of Birth: 21st July 2002

Languages Known: English, Hindi

Address: Ajmer, Rajasthan
