- **Frontend:** Lightning Web Components (LWC), Visualforce
- **Data Handling:** SOQL, SOSL, Data Loader
- **Integration:** REST APIs, External System Integrations
- **Tools:** VS Code, Git/Github, Debug Logs, Postman, Inspector Reloaded

Work Experience

HIC Global Solutions

May 2023 – Present

Salesforce Developer

- Designed and developed custom Salesforce solutions including objects, validation rules, and complex automation.
- Built scalable Flow-based automation reducing manual intervention and improving operational efficiency.
- Developed Apex triggers and asynchronous processes (Batch, Queueable) for handling large data operations.
- Debugged and resolved critical production issues related to Flows, Apex, and data inconsistencies.
- Collaborated with stakeholders to translate business requirements into scalable technical solutions.
- Improved system performance by optimizing automation logic and reducing redundant processes.

Projects

Insurance & Claims Management Platform

- Worked on automation and enhancements for claims, billing, and case management processes.
- Designed and improved Flow-based automation to support claim lifecycle tracking.
- Implemented validation logic to improve data accuracy and reduce manual errors.
- Built reports and dashboards to provide operational visibility to business owners.
- Resolved production issues related to Flows, Apex, and data inconsistencies.

Product Maintenance Tracking & Case Management System

- Customized Salesforce Case and Work Order objects to support structured issue tracking and resolution workflows.
- Designed and improved Flow-based automation and Apex logic to improve case handling efficiency.
- Built reporting solutions enabling better decision-making.
- Integrated Salesforce with external systems to create high-priority issues/cases for system failures.
- Built and maintained reports and dashboards to provide actionable insights and improve decision-making.
- Debugged and resolved issues related to automation, reporting, and data inconsistencies in production.
- Contributed to continuous improvements in system performance and user experience.

Retail Marketplace Experience Cloud

- Developed Lightning Web Components for partner community sites for case creation and resolution.
- Worked on case management processes related to Orders and Order Items with customers.
- Integrated services with Salesforce to create cases with all required data for resolution.
- Collaborated with the team to deliver scalable Experience Cloud solutions.

Education

Bachelor of Computer Application (BCA)

Kumaun University

2020 – 2023

Certifications

- Salesforce Certified Platform Developer I (PD1)
- Salesforce Certified Platform Foundations
