Grades - 64.80 %

PROJECTS

UNMANNED GUIDED VEHICLE SOFTWARE

- Working with software team for Autonomous vehicle

My role in this project was the coding of server client communication and I have done the testing on the ground, this code has been used in open CV, CAN communication, these libraries 3 modes were used in this project CRC mode, Tele-operation mode, and Autonomous mode

In CRC mode the vehicle had to be operated by joystick

In tele operation communication was through silvas radio communication and in Autonomous there was direct mapping

(Internship Project)

CAMPUS LIFE

- Creating QR codes for KKWIEER Campus Trees and Plants

My role in this project was website design and I did the work of making QR code and formatting the link after scanning the QR

HTML CSS and Javascript language were used in this project

This project was used in the campus of KK Wagh, this QR code was attached to each tree, there were 2 options like voice and pdf mode to get the tree information

(MCA Third Sem Project)

TEXT ME CHATTING APPLICATION

- Messaging Application for College Purpose

In this project my role was to make login page, sign up page and designing of pages. In this project we used android studio and this is a mobile application.

(MCA Second Sem Project)
