EDUCATION

Biju Patnaik University of Technology

B.Tech in Computer Science

CGPA: 8

Rourkela, Odisha

Expected Graduation, May 2026

PROFILE SUMMARY

Targeting **Full stack Developer** roles with an organization of high reputation with a scope of improving knowledge and further career growth.

- MERN stack (**MongoDB, Express.js, React, Node.js**) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects **efficiently**, from initial planning and design to final deployment and maintenance.
- Committed to **staying updated** with the **latest industry** trends and technologies, continuously enhancing skills to provide innovative solutions

PROJECTS

Google Docs Clone

June 2024- Current

Tools: Next Js, liveblocks, Canvax, Clerk

Developed a full-featured **Google Docs clone** with real-time collaboration, rich text editing, and advanced document management. This project enables users to create, edit, and collaborate on documents seamlessly with powerful features.

Responsibilities:

- Built the **full-stack architecture** using **Next.js 15** and **Node.js** to build scalable and responsive front-end and backend
- Implemented **authentication & authorization** for secure user access.
- Integrated a real-time collaboration using WebSocket.
- Designed a **scalable database** for efficient document management.

Microservice E-commerce

November 2024 – June 2024

Tools: Nodejs, Mongodb, TailWind, ReactJs.

Developed e-commerce platforms using MERN stack with authentication.

Responsibilities:

- DevOps student with hands-on experience in developing a microservices-based MERN E-Commerce application.
- Integrated **user authentication** and **authorization** to enable secure access to post questions, answers, and collaborate on code
- implementing an Express-based API Gateway, containerizing each service with Docker, managing them via Docker Compose, and setting up CI/CD pipelines for automated deployment to Docker Hub..

ACADEMIC ACHIEVEMENTS

- Completed comprehensive backend development training on Pw Skill platform, gaining proficiency in server-side technologies and APIs.
- Developed various web-related projects, showcasing proficiency in front-end and back-end technologies through hands-on experience.

SKILLS

Programming: Java, HTML, CSS, JAVASCRIPT, Docker, AWS, SQL

Tools: Node.js, Express.js, React.js, MongoDB, GIT, Next.js, Tailwind CSS, PostgreSQL
