## Professional Summary

---

Motivated and detail-oriented **Salesforce Developer** with hands-on experience in **Apex, Lightning Web Components (LWC), Visualforce**, and Salesforce Administration. Skilled in automation using **Flows, Process Builder, Workflow Rules**, and experienced in **custom CRM development, security models, third-party integration, and data management**. Strong problem-solving ability with a passion for delivering scalable and optimized Salesforce solutions.

## Education

---

### Master of Computer Applications (MCA)

Rajasthan Technical University, Kota (S.S. Jain Subodh P.G. College), Jaipur

2022–2024

GPA: 8.3/10

## Work Experience

---

### Salesforce Developer Intern

Sep 2024 – Apr 2025

Zeetron Network Pvt. Ltd.

- Gained hands-on experience in **Apex, Visualforce, Lightning Web Components (LWC)** and Salesforce customization.
- Assisted in developing custom Salesforce applications under senior developer guidance.
- Worked with automation tools: **Flows, Process Builder, Workflow Rules** for business process optimization.
- Supported configuration tasks including **Profiles, Permission Sets, Validation Rules, Sharing Settings**.
- Learned and applied Salesforce best practices related to **security, deployment, and data management**.
- Worked on multiple real-time scenarios to strengthen problem-solving and CRM architectural understanding.

## Projects

---

### Custom Sharing Model (Advanced Salesforce Security)

- Designed and implemented a **custom record-level sharing model** to support advanced business access requirements.
- Built LWCs enabling admins to define complex sharing rules using an intuitive interface.
- Implemented custom Apex-based sharing logic using **Apex Sharing Reasons** and custom objects.
- Created detailed technical documentation and delivered training for end users and administrators.

## Retail Company – End-to-End Salesforce Implementation

- **Stripe Payment Integration:** Developed a Lightning Web Component (LWC) for secure payment processing and link generation.
- **Order Discount Approval Workflow:** Automated approvals for discounts above 20%, ensuring proper control and profit protection.
- **Inventory Trigger:** Built Apex triggers to auto-generate replenishment orders when stock levels are low.
- **Real-time Alerts:** Implemented notification system for low-stock alerts to sales and warehouse teams.
- **Data Security & Compliance:** Applied FLS, RLS, encrypted fields, and GDPR-compliant access policies.
